### **Independent Auditors' Report**

#### **To \ The shareholders of Concrete Fashion Group for Commercial and Industrial Investments (An Egyptian Joint stock company - Under Public Free zone)**

##### ***Report on the separate Financial Statements***

We have audited the Separate financial statements of Concrete Fashion Group for Commercial and Industrial Investments (An Egyptian Joint stock company - Under Public Free zone) "The Company ", which comprise the Separate statement of financial position as of December 31, 2025, and the Separate statements of profit or loss, comprehensive income, changes in equity and cash flows for the financial year then ended December 31, 2025, and notes to the Separate financial statements comprising material accounting policies and other explanatory information.

##### ***Management's Responsibility for the separate Financial Statements***

These separate financial statements are the responsibility of the company's management. Management is responsible for the preparation and fair presentation of these separate financial statements in accordance with the Egyptian Accounting Standards and in the light of the prevailing Egyptian laws, management responsibility includes, designing, implementing and maintaining internal control relevant to the preparation and fair presentation of separate financial statements that are free from material misstatement, whether due to fraud or error, management responsibility also includes selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

##### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with the Egyptian Standards on Auditing and in the light of the prevailing Egyptian laws. Those standards require that we comply with ethical requirements, plan and perform the audit to obtain reasonable assurance whether the separate financial statements are free from material misstatement.

Hazem Hassan

Translated from Arabic

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures are selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the separate financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the separate financial statements.

### *Opinion*

In our opinion, the separate financial statements referred to above present fairly, in all material respects, the separate financial position of Concrete Fashion Group for Commercial and Industrial Investments (An Egyptian Joint stock company - Under Public Free zone) as of December 31, 2025 and its separate financial performance and its separate cash flows for the financial period from December 31, 2025 in accordance with the Egyptian Accounting Standards and the Egyptian laws and regulations relating to the preparation of these separate financial statements.

### *Emphasis of matter*

Without being considered this a qualification to our opinion, and we draw attention to Note (31) of the explanatory notes to the separate financial statements, the Extraordinary General Assembly of the company, that was held on June 12, 2024, decided to change the company's fiscal year to end on December 31 each year instead of January 31. Consequently, the separate statements of profit or loss, comprehensive income, changes in equity, and cash flows and their related disclosers, are presented in comparison with the audited separate financial statements for the financial period from February 1, 2024, to December 31, 2024. Therefore, the corresponding figures are not comparable.

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)**

**Notes to the separate financial statements for the financial year ended on December 31, 2025**

**1- Company's Background and activities**

**1-1 Legal entity**

- Concrete Fashion Group for commercial and industrial Investments (An Egyptian Joint stock company - Under Public Free zone) (Al Arafa for Investment and Consultancies) was established as Swiss Garments Company previously, in accordance with provisions of investment incentives and guarantees Law No.8 of 1997, operating under the Free Zone system.
- Company's Duration is 25 years starting from January 16, 2006 to January 15, 2031.
- Company's location: Nasr city free zone, Arab Republic of Egypt.
- The Company's Chairperson is Mrs. Maria Luisa Cicognani
- The Company's vice Chairman and Managing Director is Dr/Alaa Ahmed Abd El Maksoud Arafa.

**1-2 Swiss Garments company demerge**

- The Board of Directors of Swiss Garments Company (S.A.E.) -Free Zone proposed in its meeting held on the 18th of June 2005 to demerge the Company into two Joint Stock Companies (demerging Company and Demerged Company) operating according to the Free Zone System with the same shareholders and the same participation percentage in the company's issued capital as of the demerge date. , using the book value of the assets and liabilities on the 30th of June 2005 as a basis for the demerge. As the purpose of the demerging company will be specialized in investing in financial instruments and the demerged company will be specialized in manufacturing ready made garments., As the company's Extraordinary General Assembly at its session held on October 14,2005 agreed on the mentioned board of director's proposal, as a final approval on the issuance of the demerge decision was taken by the general Authority for Investment and Free Zone as of November 24,2005.
- The demerging Company's name was changed to Al Arafa for Investment and Consultancies Company, and the Article of Association was amended accordingly on January 11, 2006 and was approved on commercial register under no.17426 on January 16, 2006.

**1-3 Merger of both Al Arafa for Investment and Consultancies Company (S. A. E.) with the General Free Zone System (merging company) and Al Arafa for Investment in Garments industry Company (merged company), Al Arafa for Investment in Spinning and Textile Industry Company (merged company), and Al Arafa for Investments in Garments Marketing and Retail Company (merged company)**

- The decision of the formed committee was issued by the General Authority for Investment and Free Zone, approved on the first of July 2019 to verify the initial assessment of the assets and liabilities of the following companies for the purpose of merging with Al Arafa for Investment and Consultancies Company (S. A. E.) merging company with both Al Arafa for Investment in Spinning and Textile Industry Company (S. A. E.) "free zone", and Al Arafa for Investment in Garments industry Company (S. A. E.) "free zone" and Al Arafa for Investments in Garments Marketing and Retail Company (S. A. E.) "free zone" (merged companies) using the book values according to the financial statements of the merging company and the merged companies on October 31, 2018. , taken as a basis for the merger , it was agreed to determine the authorized capital of the merging company amounted USD 150 million (one hundred and fifty million USD) and the issued and paid-up capital of the company amounted USD 94 050 000 (ninety four million fifty thousand USD) distributed over 470 250 000 shares (four hundred seventy million two hundred and fifty thousand shares) with a value of USD 20 cents per share. It is represented in the total net equity of the merging company, Al Arafa for Investment and Consultancies Company and the net equity of non-controlling interest of the merged companies according to the report of the committee formed by the General Authority for Investment and Free Zone and according to the decision of the Executive chairman of the General Authority for Investment and Free Zone No. 85 of 2019 regarding licensing the merger of each of the Al Arafa for Investment in Spinning and Textile Industry Company (S. A. E.), and Al Arafa for Investment in Garments industry Company (S. A. E.) and Al Arafa for Investments in Garments Marketing and Retail Company (S. A. E.) (free zone) (merged companies) in Al Arafa for Investment and Consultancies Company (S. A. E.) (merging company) in the public free Zone system in Nasr City, and this was notarized in the company's commercial registry on December 10, 2019.

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)  
Notes to the separate financial statements for the financial year ended on December 31, 2025**

**1-4 Al Arafa For investment and consultancies company demerge**

- On November 22, 2023, the extraordinary general assembly of Concrete Fashion Group for commercial and industrial Investments (Al Arafa for Investment and consultancies - Previously) approved the proposal presented by the company's board of directors to demerge the company according to the horizontal merge method based on the book value on the basis of the company's financial statements as of January 31, 2023. This demerge creates two companies, Al-Arfa for Investment and Consultancy (the demerging company), which will reduce its issued capital by decreasing the nominal value of its shares, and will also change its name to "Concrete Fashion Group for Commercial and Industrial Investments S.A.E" while retaining the same purposes. The demerge will also result in the creation of a new company called GTEX for Commercial and Industrial Investments S.A.E (the demerged company). The extraordinary general assembly also approved the demerge report issued by the Economic Performance Sector of the General Authority for Investment and Free Zones, indicating the net owner's equity of the demerging company and the demerged company at book value on January 31, 2023, which amounted to USD 50 157 720. The net owner's equity are to be distributed between the demerging company and the demerged company as follows:
  1. The net of owner's equity of the shareholders of the demerging company on January 31, 2023, amounted USD 32 981 870.
  2. The net of owner's equity of the shareholders of the demerged company on January 31, 2023, amounted USD 17 175 850.
- The extraordinary general assembly also approved the demerge of the company, including all its material and non- material components, into two companies: Concrete Fashion Group for Commercial and Industrial Investments S.A.E (the demerging company) and GTEX for Commercial and Industrial Investments S.A.E (the demerged company), transferring all assets, liabilities, shareholder's equity, revenues, and expenses between the two companies based on the financial statements as of January 31, 2023.
- The company's management has taken all the necessary legal and administrative procedures and completed the demerge process and was notarized in the commercial register on December 24, 2023.

**1-5 Company's financial year**

- According to the company's Article of association, the company's financial period start from the first of February from each year and ends at 31 January from the next year , the extraordinary assembly held on June 12, 2024 decided to amend the company's financial year to start from 1<sup>st</sup> of January and end at December 31 of each year

**1-6 Company's purpose**

Providing financial and management consultancy services, investing in Capitals of other Egyptian and Foreign Companies and participating in restructuring companies and providing them with technical and management support.

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)  
Notes to the separate financial statements for the financial year ended on December 31, 2025**

---

**1-7 Listing in the stock exchange**

The Company has been listed in the Egyptian Stock Exchange.

**2- Basis of preparation of the separate financial statements**

- The attached separate financial statements are prepared in accordance with Egyptian accounting standards and relevant Egyptian laws and regulations.
- Egyptian accounting standards require reference to international financial reporting standards for events and transactions for which an Egyptian accounting standard or legal requirements have not been issued explaining how to deal with them.
- The separate interim financial statements for the period ended December 31, 2025 were approved for issuance by the company's board of directors on April 22, 2026.
- Details of the company's material accounting policies have been included in Note No. (32).

**2-1 The consolidated financial statements**

The company has subsidiaries, and in accordance with Egyptian Accounting Standard No. (42) "Consolidated Financial Statements" and Article 188 of the Executive Regulations of the Companies Law No. 159 of 1981, the company prepares consolidated financial statements for the group. It is therefore necessary to refer to these statements to gain an understanding of the financial position, results of operations, and cash flows of the group.

**3- Basis of measurement**

- The separate financial statements have been prepared according to the historical cost principle, with the exception of financial instruments that are measured at amortized cost or at fair value
- Investments in subsidiaries and associate companies have been presented in the separate interim financial statements on the basis of cost, which represents the company's direct share in the ownership and not on the basis of business results and net assets of the investee companies. The consolidated financial statements provide a more comprehensive understanding of the consolidated financial position, business results and consolidated cash flows of the Company and its subsidiaries (the Group).

**4- Functional and presentation currency**

The separate financial statements are presented in the USD which is the functional currency, and all the financial information included are in USD, unless otherwise indicated in the separate financial statements or in the notes of the financial statement.

**5- Use of estimates and judgments**

- In preparing the separate financial statements in accordance with Egyptian Accounting Standards (EAS), management has made judgments, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures, and the disclosure of contingent liabilities. These estimates and assumptions are based on experience and various factors. Actual results may differ from these estimates and the uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.
- The estimates and underlying assumptions are reviewed on an ongoing basis. differences in accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future years.

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)  
Notes to the separate financial statements for the financial year ended on December 31, 2025**

---

**A- Judgments**

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the separate financial statements is included in the following:

- **Revenue recognition**

Revenue is recognized as detailed in the accounting policies applied whether at a point in time or overtime.

- **Investments in associates and join venturer (If any):**

Determining whether the Company has significant influence over Companies and investees.

The management reviews its judgmental assumptions and estimates, including what used in determining the extent to which the Company enjoys absolute or joint control or influential influence over the investee companies whenever a material event or an effective amendment occurs to the terms contained in its contractual agreements.

- **Finance lease contracts (sale and leaseback transactions)**

If the entity (the seller-lessee) transfers an asset to another entity (the buyer-lessor) and leases the asset back, the entity must determine whether the transfer of the asset qualifies as a sale for accounting purposes.

**B- Assumptions and estimation uncertainties**

The key assumptions concerning the future, and other key sources of estimation uncertainty at the of separate interim financial statements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period , are discussed below. The Company depends on its assumptions and estimates on parameters available when the separate interim financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

- **Provisions and contingent liabilities**

Management assess events and circumstances that might led to a commitment on the Company's side from performing its normal economic activities, management uses in this primary estimates and assumptions to judge the extend on which the provision's recognition conditions have been met at the financial statement date, and analyze information to assume whether past events lead to current liability against the Company and estimate the future cash outflows and timing to settle this obligation, in addition, selecting the method which enable the management to measure the value of the commitment reliably.

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)  
Notes to the separate financial statements for the financial year ended on December 31, 2025**

---

- **Calculation of Expected credit loss**

The Company assesses the impairment of its financial assets based on the expected credit loss (“ECL”) model. Under the ECL model, the Company accounts for expected credit losses and changes in those expected credit losses at the end of each reporting period to reflect changes in credit risk since initial recognition of the financial assets. The Company measures the loss allowance at an amount equal to the lifetime ECL for its financial instruments.

When measuring ECL, the Company uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other. Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, considering cash flows from collateral and integral credit enhancements. Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions, and expectations of future conditions.

- **Impairment of non – financial assets**

Properties classified under property, plant and equipment are assessed for impairment when there is an indication that those assets have suffered an impairment loss. An impairment review is carried out to determine the recoverable amount which considers the fair value of the property under consideration.

The fair values are compared to the carrying amounts to assess any probable impairment (If any).

- **Useful lives of property, plant and equipment and intangible assets**

Management reviews the residual values and estimated useful lives of property, plant and equipment and intangible assets at the end of each financial year. Management has determined that the current period’s expectations do not differ from previous estimates based on its review.

**C- Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinarily transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability will take place either

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)  
Notes to the separate financial statements for the financial year ended on December 31, 2025**

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its best and best use or selling it to another participant who will use the asset at its best and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities that are measured or disclosed in the separate interim financial statements at fair value are categorized in fair value hierarchy categories. This is described, as follows, based on the lowest level input that is significant to the entire fair value measurement as a whole:

- **Level 1:** Quoted prices (unadjusted) in an active market for identical assets or liabilities.
- **Level 2:** Evaluation techniques in which the lowest level inputs considered significant for the entire measurement are directly or indirectly observable.
- **Level 3:** Assessment techniques in which the lowest level input considered significant for the entire measurement is unobserved.

If the inputs used to measure the fair value of an asset or liability are at different levels in the fair value hierarchy, the entire fair value measurement is classified in the same level in the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The company acknowledges transfers between levels in the fair value hierarchy that occur at the end of the reporting period in which the change occurred.

Further information about assumptions used in measuring fair value is disclosed in the Financial Instruments note.

**23- Financial instruments**

**Financial risk management**

The Company is exposed to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Currency risk
- Interest rate risk
- Other market price risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, as well as the Company management of capital. Further quantitative disclosures are included throughout these separate interim financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board also identifies and analyzes the risks faced by the Company, sets appropriate risk limits and controls, and monitors risks and adherence to limits.

The Company aims to develop a disciplined and constructive control environment through which all employees understand their roles and obligations.

Both the Audit Committee and Internal Audit Management assist the Company's Board of Directors in its oversight role. Internal Audit Management is responsible for conducting both regular and surprise inspections of control aspects and policies related to risk management, and reports the results of these inspections to the Board of Directors.

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

---

**Credit risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur financial loss. This risk is mainly associated with the Company's banks, time deposits, Notes receivables and other receivables.

- The company deals with banks with high credit ratings and banks with high financial solvency.

**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company ensures that it has sufficient cash on demand to meet expected operational expenses for an appropriate period including the cost of servicing financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

**Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments.

The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return.

**Currency risk**

The Company is exposed to currency risk on its financial assets and financial liabilities denominated in foreign currencies, primarily the Egyptian Pound, the Euro, and the Sterling Pound.

With respect to monetary assets and liabilities denominated in other foreign currencies, the Company ensures that its net exposure to currency risk remains at an acceptable level by purchasing or selling foreign currencies at spot rates when necessary to address short-term imbalances.

**Interest rate risk**

The Company adopts a policy aimed at ensuring that its exposure to interest rate risk on borrowings is limited to those bearing a variable annual interest rate equal to the secured overnight financing rate (SOFR) plus the bank's profit margin, in accordance with the contractual terms agreed with the banks with which the Company deals. The Company does not enter into interest rate swap transactions.

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

---

**Other market price risk**

Equity price risk arises from available-for-sale equity securities and the management of the Company monitors the mix of equity securities in its investment portfolio based on market indices and the objective valuation of the financial statements related to these shares.

Material investments within the portfolio are managed on an individual basis and all buying and sell decisions are approved by the Company' Board of Directors.

The primary goal of the Company's investment strategy is to maximize investment returns. Management is assisted by external advisors in this regard.

**Capital management**

The company's policy is to maintain a strong capital base in order to preserve the confidence of investors, creditors, and the market, as well as to meet future developments in the business. The company's board of directors is responsible for monitoring the return on capital, which is defined by the company as the net profit for the period divided by total shareholder equity. The board of directors also monitors the level of dividend payouts to shareholders.

The board of directors seeks to balance between maximizing returns with high levels of borrowing, benefits, and guarantees, while maintaining safe capital base.

There are no changes in the company's capital management strategy during the period, nor is the company subject to any external requirements imposed on its capital.

**a. Credit risk exposure**

The carrying amount of financial assets represents the maximum exposure to credit risk, which amounted as of the date of the separate interim financial position date as follows:

	<b><u>Note.</u></b>	<b>December</b>	<b>December</b>
	<b><u>No</u></b>	<b>31, 2025</b>	<b>31, 2024</b>
		<b><u>USD</u></b>	<b><u>USD</u></b>
Debtors and other debit balances	(18)	20 584	38 362
Due from related parties	(28-1)	3 242 884	1 363 057
Cash and cash equivalents	(19)	92 784	479 947
		<b><u>3 356 252</u></b>	<b><u>1 881 366</u></b>

All financial assets and liabilities are classified and measured at amortized cost, and the fair value of all financial instruments does not differ materially from their book value.

For the purpose of disclosure of financial instruments, non-financial assets of USD 142 511 (December 31, 2024: USD 327 146) are excluded from other debit balances.

GBP	1.3460	1.2542	1.3219	1.2793

**Assessment of currency exchange difficulty**

"On March 3, 2024, the Prime Minister issued Decision No. 636 amending Egyptian Accounting Standard No. (13), effect of changes in foreign currency exchange rates (Egyptian Accounting Standard No. 13, Paragraph 57A), effective from January 1, 2024.

The company applied the amendment in Paragraph 57-A of Egyptian Accounting Standard No. (13) and conducted an Assessment to determine whether there is difficulty in exchanging foreign currencies against the US Dollar.

The company assessed that there is no difficulty in exchanging assets denominated in foreign currency as of December 31, 2025 This assessment was based on the ability to exchange foreign currency-denominated assets at the bank at any time without any difficulty.

The company also assessed that there is no difficulty in exchanging foreign currency-denominated liabilities, to the extent that foreign currency-denominated assets can be used to settle these liabilities. There are no foreign currency-denominated liabilities that would be settled outside the banking system, as a significant portion of the related parties sales are in US Dollar, Euro, and British Pound. Therefore, there is no estimate of difficulty in exchanging these balances, and there is no cash impact from the application of the amended Egyptian Accounting Standard No. (13).

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

**d. Sensitivity Analysis**

The 5% increase (decrease) in exchange rates of foreign currencies against the US dollar on June 30 would impact the measurement of financial instruments in foreign currency and affect owner's equity as illustrated below. This analysis assumes the stability of all other variables, especially interest rates, and disregards any potential impact from expected sales and purchases.

**December 31, 2025**

<u>Description</u>	<u>Effect on profit or loss</u>		<u>Effect on owner's equity</u>	
	<u>Increase</u>	<u>Decrease</u>	<u>Increase</u>	<u>Decrease</u>
EGP	66 897	(66 897)	66 897	(66 897)
Euro	(98 818)	98 818	(98 818)	98 818
GBP	1 134	(1 134)	1 134	(1 134)

**December 31, 2024**

<u>Description</u>	<u>Effect on profit or loss</u>		<u>Effect on owner's equity</u>	
	<u>Increase</u>	<u>Decrease</u>	<u>Increase</u>	<u>Decrease</u>
EGP	105 099	(105 099)	105 099	(105 099)
Euro	(87 032)	87 032	(87 032)	87 032
GBP	2 673	(2 673)	2 673	(2 673)

**e. Interest rate risk**

At the date of separate interim financial statements, the interest rate profile of the Company's financial instruments was as follows: -

<u>Financial assets</u>	<u>Note.</u>	<u>31/12/2025</u>	<u>31/12/2024</u>
	<u>No</u>	<u>USD</u>	<u>USD</u>
Financial assets with a variable rate – banks current account	(19)	92 784	479 947
		<u>92 784</u>	<u>479 947</u>
<u>Financial liabilities</u>			
Financial liabilities with a variable rate -loan	(20)	2 056 888	2 826 265
Financial liabilities with a variable rate – credit facilities	(21)	901 595	1 114 955
		<u>2 958 483</u>	<u>3 941 220</u>

**f. Sensitivity Analysis**

A change in interest rates by 100 basis points would have an impact on the valuation of assets and liabilities with variable interest rates as follows:

**December 31, 2025**

<u>Description</u>	<u>Effect on owner's equity</u>		<u>Effect on profits or losses</u>	
	<u>Increase</u>	<u>Decrease</u>	<u>Increase</u>	<u>Decrease</u>
Financial liabilities	(29 585)	29 585	(29 585)	29 585
Financial assets	928	(928)	928	(928)

**December 31, 2024**

<u>Description</u>	<u>Effect on owner's equity</u>		<u>Effect on profits or losses</u>	
	<u>Increase</u>	<u>Decrease</u>	<u>Increase</u>	<u>Decrease</u>
Financial liabilities	(39 412)	39 412	(39 412)	39 412
Financial assets	4 800	(4 800)	4 800	(4 800)

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

**24- Capital**

**24-1 The Authorized Capital**

The authorized capital of the company amounted USD 150 million (one hundred and fifty million US dollars), according to the decision of the extraordinary general assembly held on November 22, 2023, the demerge of Al-Arafa Investment and Consulting Company into two companies has been approved, as well as the reduction of the authorized capital of the company to be an amount of 32 917 500 US dollars.

**24-2 Issued and paid-up capital**

The issued and paid-up capital after the amendment has reached USD 94 050 000 according to the decision of the extraordinary general assembly of the company.

The issued and paid-up capital of the company consists of 470 250 000 nominal shares, at a value of 20 cents per share, and the issued capital is fully paid, which is the sum of the net equity in the merging company, according to the report of the formed committee by the General Authority for Investment and Free Zone in accordance with the decision of the CEO of the General Authority for Investment and Free Zone No. 127 of 2019.

Based on the Extraordinary General Assembly meeting held on November 22, 2023, regarding the Demerge of Al-Arafa Investment and Consulting Company, it has been approved to reduce the company's issued capital to \$32 917 500, distributed over 470 250 000 shares at a value of 7 cents per share. The company's issued capital represents the total net equity of the company after deducting \$64 370 held as reserves. The authorized, issued and paid-up capital has been notarized in the Commercial Register of the company as of December 24, 2023. The shareholder structure is distributed as follows:

<b><u>Name</u></b>	<b><u>No. of shares</u></b>	<b><u>Nominal value</u></b>	<b><u>Percentage</u></b>
	<b><u>share</u></b>	<b><u>USD</u></b>	<b><u>%</u></b>
Mrs. / Samaa Abd El Gawad Mohamed Ragab	77 436 541	5 420 558	16.46%
Mrs./ Shereen Ahmed Abd El Maksoud Arafa	66 576 321	4 660 342	14.15%
Mr. / Ashraf Ahmed Abd El Maksoud Arafa	55 949 224	3 916 446	11.89%
Mrs. / Malak Alaa Ahmed Arafa	44 341 111	3 103 878	9.4%
Mrs. / Shams Alaa Ahmed Arafa	44 341 111	3 103 878	9.4%
Other shareholders	181 605 692	12 712 398	38.7%
	<b><u>470 250 000</u></b>	<b><u>32 917 500</u></b>	<b><u>100%</u></b>

- The main shareholders for the company are the Arafa family.

**25- Reserves**

	<b><u>December 31, 2025</u></b>	<b><u>December 31,2024</u></b>
	<b><u>USD</u></b>	<b><u>USD</u></b>
Reserves resulted from demerge	--	6 737 403
	<b><u>--</u></b>	<b><u>6 737 403</u></b>

**Legal reserve**

According to the requirements of the companies' laws and the articles of association of the group companies, 5% of the annual net profit of the companies is set aside to form the statutory reserve until it reaches 50% of the issued capital of each company. No distribution is made from this reserve, but it can be used to increase capital or reduce losses.

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

---

**A reserve resulting from the process of demerge transaction**

According to the demerge decision the financial statements were prepared on January 31, 2023 for Al-Arafa for Investments and Consultations have been taken as a basis for the demerge and the balance was settled according to the report of the General Investment Authority as follows:

	<u>USD</u>
Setting aside an amount in the reserve account in accordance with the decision of the extraordinary general assembly of the demerging company on November 22, 2023	64 370
Reverse of impairment losses in investments in certain subsidiaries	6 673 033
<b>Reserve resulting from demerge</b>	<b>6 737 403</b>
<b><u>Deduct:</u></b>	
Offsetting reserves against retained losses*	(6 737 403)
	<u>          --</u>

- \* The Ordinary General Assembly of the company held on May 20,2025 decided to use the reserve to cover the accumulated losses of the company.

**26- Tax status**

As mentioned in the Company's tax card, the Company and the company's dividends are not subject to tax laws and charges applied in Republic of Egypt (article No. 35 of law No.8 for the period of 1997 which was replaced by Article 41 of Law 72 for the period of 2017).

**26-1 Payroll tax**

- The payroll tax has been inspected from the beginning of the activity until 2022 and the payment has been made. The tax deducted is paid monthly on legal dates.
- No tax inspection has been conducted for the years from 2023 to date

		<b>257 069</b>	<b>208 421</b>

**28-4 Significant contracts concluded with related parties**

The holding company has entered into technical and administrative support contracts with some subsidiaries and sister companies (related parties) to provide various administrative and technical services.

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

---

**29- Contingent liabilities**

- The value of the letters of guarantee issued by banks on behalf of the company and some of its subsidiaries in favor of others as at December 31, 2025 amounted USD 2 431 250 without covered as of December 31, 2024 the value amounted to USD 4 312 949 with covered amount USD 6 173. Note No. (18)
- All shares of Swiss Garments Company and Swiss Cotton Garments Company, which are owned by the company, are pledged in favor of one of the commercial banks dealing with the subsidiaries as collateral for the facilities granted to them. Refer to Note No. (15).

**30- Capital Commitments**

- The value of capital commitments on December 31, 2025 amounted USD 3 748 679 value of investment at Savini For Ready – Made Garments Company and there are USD 3 690 000 commitment for the period ended December 31, 2024 represented as follows:-
- The remaining investment in Savini Garments Company (with 25% of the investment paid) amounts to USD 3,690,000 (see Note No. 15).
- The company established Concrete Fashion Company, headquartered in Riyadh, Kingdom of Saudi Arabia, on June 8, 2025, and the issued capital was amended on September 17 to become SAR 25 000 (equivalent to USD 6,665). According to the Saudi Investment Law, it is not required to inject the entire capital in one payment; rather, the capital can be injected in operational phases provided that the actual investment is made within the licensed activity. An annual update must be submitted, including the investor's commitment to inject the capital according to an approved plan within a maximum period of five years. In case of violation of the investment plan or cessation of the activity, the license will be revoked (see Note No. 15).
- The company established Concrete Fashion Group for Commercial and Industrial Investments (LLC), headquartered in Muscat Governorate, Sultanate of Oman. The company did not commence any activities as of September 30, 2025. It was established on May 3, 2025, with an issued capital of 20,000 Omani Riyals (equivalent to USD 52 014), which has not been paid up to date (see Note No. 15).

**31- Corresponding figures**

The company's extraordinary general assembly held on June 12, 2024, decided to change the company's financial year-end to December 31 of each year instead of January 31. Accordingly, the separate statements of profit or loss, comprehensive income, changes in equity, and cash flows have been presented for the financial year from January 1, 2025, to December 31, 2025, are presented in comparison with the audited comparative separate financial statements for the financial period from February 1, 2024, to December 31, 2024. Consequently, the corresponding figures are not comparable.

**32- Material accounting policies**

The separate interim financial statements have been prepared by following the same accounting policies that are applied continuously when preparing the company's separate annual financial statements.

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)  
Notes to the separate financial statements ended on December 31, 2025**

---

**32-1 Translation of transactions in foreign currencies**

The company interim maintains its accounts in USD. Foreign transactions are translated in the functional currency at the exchange rate prevailing on the transaction dates. On the date of the separate financial statements, assets and liabilities of monetary nature in foreign currencies are translated into USD according to the prevailing exchange rates on that date, and the resulting currency differences are included in the separate profit or loss statement. Assets and liabilities of a non-monetary nature denominated at historical cost in foreign currency are translated using the prevailing exchange rates at the date of the transaction, and the currency differences resulting from transactions during the period and from revaluation at the date of the separate financial statements are included in the separate profit or loss statement.

On an exceptional basis, the Egyptian Cabinet agreed to deal with the exceptional economic decision related to moving the exchange rate by setting an additional option for Paragraph No. (28) of the amended Egyptian Accounting Standard No. (13) "The Effects of Changes in Foreign Exchange Rates," which requires recognition of currency differences within The statement of profits or losses for the period in which these differences arise so that the standard allows the recognition of debit and credit currency differences on the translation of assets and liabilities of monetary nature in foreign currencies existing at the end of the fiscal period within the items of other comprehensive income in accordance with Paragraph No. (9) of the appendix to the standard amendment, and also Paragraph No. (10) of the amendment made it possible to include the amount of currency differences resulting from the retranslation of monetary items, which were presented in the items of other comprehensive income in accordance with Paragraph No. (9) of this appendix, in the profit or loss carried forward at the end of the financial period for applying the special treatment, which is contained in this appendix.

The company's management decided during the comparative period to apply Accounting Treatment No. (2), whereby foreign currency differences charged to the statement of comprehensive income amounted to a loss of zero USD as of December 31, 2025, compared to a loss of USD 1,748,298 as of December 31, 2024 – see Note (23-C).

**32-2 Property, plant and equipment and depreciation**

**a. Initial recognition and measurement**

Items of property, plant and equipment are recognized at cost less accumulated depreciation and accumulated impairment losses.

If the substantive components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Profit and losses resulted from disposal of fixed assets are recognized within separate profits or losses statement.

**b. Subsequent acquisition costs**

The costs subsequent to acquisition are capitalized on the assets only if it is probable that it will generate and increase the future economic benefits of the assets. As all the other expenses are recognized in the separate profits or losses statement as an expense when incurred, maintenance and repair costs are also charged to the profit or loss statement for the fiscal period in which they occurred.

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

---

**c. Depreciation**

Depreciation of fixed assets applicable to be depreciated - which is the cost of an asset deducting its scrap value – is according to the straight-line method and this is over the estimated useful life of each type of fixed asset and the depreciation is charged to the profit or loss statement. Land is not depreciated – if any.

The residual value, useful life, and method of depreciation of assets are reviewed on the date of the financial statements, taking into account that the effect of any changes in those estimates is accounted for on a future basis.

The book value of an item of fixed assets is excluded from the books upon its disposal or in the event that no future economic benefits are expected from its use. The profits or losses resulting from the disposal of an item of fixed assets are included in the separate statement of profits or losses, and are determined on the basis of the difference between the net disposal proceeds and the book value of the item.

The following are the estimated useful lives for each type of fixed assets.

**The following are the estimated useful lives**

<b><u>Fixed assets</u></b>	<b><u>Useful life</u></b> <b><u>(Year)</u></b>
* Buildings	50
* Travel & Transportation Vehicles	5
* Office furniture and equipment	2-16.66
* Leasehold improvements	10

- d.** Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the profit or loss under item (other operating revenues/expenses.)

**32-3 Lease contracts**

**1) Determining whether the arrangement contains a lease contract or not**

At inception of a contract, the Company assesses whether a contract is, or contains, a lease.

Initially or when evaluating any arrangement that contains a contract lease, the Company separates the payments and the other considerations which are required by the arrangement of the lease and those of other elements based on their relative fair values. If the Company concludes with a finance lease that it is not possible to separate the payments in a reliable manner, then the asset and the liability are recognized at an amount equal to the fair value of the underlying asset; Then the liability is reduced when the payments is fulfilled, and the finance cost calculated on the obligation is recognized using the Company's additional borrowing rate.

**2) Leased assets**

Lease contracts for property, plant and equipment that are transferred in a large degree to the Company, all of the risks and rewards associated with the property are classified as finance leases. Leased assets are initially measured at an amount equal to the fair value of the fair value and the present value of the minimum lease payments, whichever is less. After initial recognition, the assets are accounted for according to the accounting policy applied to that asset.

Assets held under other contracts leases are classified as operating contracts leases and are not recognized in the Company's statement of financial position.

**3) Lessor books**

When the Company acts as a lessor, it determines at the inception of the lease whether each lease is or not a lease or operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease has been transferred substantially all the risk and reward incidental to ownership of the underlying asset.

If so, the lease is an indirect lease; If not, it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is in place for the principal part of the economic age of the asset.

Where the Company is an intermediate lessor, it accounts for its share of the main lease and sublease separately. It assesses the classification of a sublease with reference to the right-of-use asset arising from the main lease, not with reference to the underlying asset. If the lease is a short-term lease for which the Company applies the above exemption, then the sublease is classified as an operating lease. If the arrangement contains lease and non-lease components.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

**Financial Lease contracts (sale and lease-back)**

If the entity (the lessee) transfers the asset to another entity (the lessor) and re-leases this asset, the entity must determine whether the transfer of the asset is accounted for as a sale of this asset or not.

**In the case of transferring the asset is not a sale:**

The lessee must continue recognizing the transferred asset and must recognize a financial liability equal to the transfer proceeds.

**Assessing Whether the Asset Transfer Constitutes a Sale:**

The entity must apply the requirements for determining when a performance obligation is satisfied under Egyptian Accounting Standard (EAS) 48 to evaluate whether the asset transfer should be accounted for as a sale of that asset

**32-4 Investments in subsidiaries**

Investments in subsidiaries are accounted for in the company's independent financial statements using the cost method, so that investments in subsidiaries are recorded at acquisition cost, minus impairment in value. Impairment is estimated for each investment separately and is recorded in the profit or loss statement. Subsidiaries are companies controlled by the company when the investor achieves all of the following:

- Power over the investee.
- Exposure or right to variable returns through its participation in the investee.
- The ability to use its power over the investee to affect the amount of returns it obtains from it.

The Company shall reassess control over the investee if facts and circumstances indicate that there are changes to one or more of the three elements of control mentioned above.

**32-5 Financial Instruments:**

**Financial assets**

**Recognition and initial measurement**

Other current assets are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

**a- Classification and subsequent measurement**

**Financial assets**

On initial recognition, a financial asset is classified as measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting year following the change in the business model.

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

---

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect future cash flows and selling financial asset.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of (principal and interest on the principal amount outstanding).

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not previously designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of (principal and interest on the principal amount outstanding).

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

**Financial assets- Business Model Assessment**

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

The stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;

How the performance of the portfolio is evaluated and reported to the Company's management; and

The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed.

How managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and

The frequency, volume and timing of sales of financial assets in prior years, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed (if any) and whose performance is evaluated on a fair value basis are measured at FVTPL.

**Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest**

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular year of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- Contingent events that would change the amount or timing of cash flows.
- Terms that may adjust the contractual coupon rate, including variable-rate features.
- Prepayment and extension features; and
- Terms that limit the Company’s claim to cash flows from specified assets (e.g., non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual per amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

**Financial assets – Subsequent measurement and gains and losses**

<b>Financial assets classified at FVTPL</b>	Financial assets at FVTPL are measured at fair value. Changes in the fair value, including any interest or dividend income, are recognized in profit or loss.
<b>Financial assets at amortized cost</b>	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
<b>Equity investments at FVOCI</b>	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.
<b>Debt investments at FVOCI</b>	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

**Financial liabilities – Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative, or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

**Derecognition**

**Financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

**Financial liabilities**

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

**Offsetting**

Financial assets and financial liabilities are offset, and the net amount presented in the statement of financial position when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

**32-6 Impairment**

**a. Financial assets**

**1) Non-derivative financial assets**

**Financial instruments and contract assets**

The company recognizes loss allowances for ECLs for:

- Financial assets measured at amortized cost.
- Debt investments measured at FVOCI; and
- Contract assets.

The company measures loss allowances at an amount equal to the ECLs over the life of the financial asset, except for the following, which are measured at an amount equal to ECLs for 12 months:

- Debt securities that are determined to have low credit risk at the reporting date; and
- Other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
- Loss allowances for trade receivables and lease receivables are always measured at an amount equal to lifetime of the ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the company's historical experience and informed credit assessment and including forward-looking information.

The company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

**The Company considers a financial asset to be in default when:**

- The debtor is unlikely to pay its credit obligations to the company in full, without recourse by the company to actions such as releasing security (if any is held); or
- The financial asset according to the terms of payment and the nature of each sector for individual customers and considering the study of expected credit losses prepared by the company.

The company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

**Concrete Fashion Group for commercial and industrial Investments  
(An Egyptian Joint stock company - Under Public Free zone)  
Notes to the separate financial statements ended on December 31, 2025**

---

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

**Measurement of ECLs**

It is a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

**Credit-impaired financial assets**

At each reporting date, the company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

**Evidence that a financial asset is credit-impaired includes the following observable data:**

- Significant financial difficulty of the borrower or issuer.
- A breach of contract such as a default or being more than 120 days past due and the restructuring of a loan or advance by the company on terms that the Company would not consider otherwise. It is probable that the borrower will enter bankruptcy or other financial reorganization; or the disappearance of an active market for a security because of financial difficulties.

**Presentation of allowance for ECL in the statement of financial position**

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

**Write-off**

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset entirety or a portion of it. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is two periods past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

**Impairment of Non-financial assets**

At each reporting date, the company reviews the carrying amounts of its non-financial assets and intangible asset to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

**Concrete Fashion Group for commercial and industrial Investments**  
**(An Egyptian Joint stock company - Under Public Free zone)**  
**Notes to the separate financial statements ended on December 31, 2025**

---

For impairment testing, assets are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any other asset the CGU.

An impairment loss for other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized in the previous years.

### **32-7 Capital**

**i. Common shares**

Incremental costs directly attributable to the issuance of common stock and underwriting options are recognized as a deduction from shareholders' equity.

**ii. Repurchase and re-issuance of capital share**

When issued capital shares are repurchased, the amount of consideration paid against repurchase, including directly attributable costs, is recognized and it will be classified as treasury bills, presenting the treasury bills as a deduction from total equity.

When the treasury shares are sold or reissued, the amount proceed is recognized as an increase in shareholders' equity and the surplus or deficit resulting from the transaction within the reserves.

**iii. Dividends**

Dividends are recognized as a liability in the period in which they are declared and approved by the company's general assembly.

### **32-8 Provisions**

The provision is recognized when the company has a current obligation (legal or constructive) as a result of past events and it is likely that the settlement of that obligation will result in an outflow from the company in the form of resources that include economic benefits. The estimated costs to meet these obligations are likely to occur and it is possible to estimate the value of the obligation in a reliable manner. The value recognized as a provision represents the best available estimate of the consideration required to settle the present obligation at the date of the independent financial statements, if the risks and uncertainties surrounding that obligation are taken into account. When a provision is measured using the cash flows estimated to settle the present obligation, the carrying amount of the provision represents the present value of those flows. If the cash flows are discounted, the book value of the provision increases in each period to reflect the time value of money resulting from the period's lapse. This increase in the provision is recognized within the financing expenses in the separate profit or loss statement.

### **32-9 Revenue**

#### **Revenue from contract with customer**

Revenue is recognized at the fair value of the consideration received or due to the company, after excluding any discounts.

Revenue from contracts with customers is recognized by the group based on five steps module as EAS 48:

- **Step 1:** Determine the contract (contracts) with customer: A contract is defined as an agreement between two or more parties that meets the rights and obligations based on specified standards which must be met for each contract.
- **Step 2:** Determine the performance obligations in contract: Performance obligations is a consideration when the goods and services are delivered.
- **Step 3:** Determine the transaction price: Transaction price is the compensation amount that the Group expects to recognize to receive for the transfer of goods or services to customer, except for the collected amounts on behalf of other parties.
- **Step 4:** Allocation of the transaction price of the performance obligations in the contract: If the service concession arrangement contains more than one performance obligation, the Group will allocate the transaction price on each performance obligation by an amount that specifies an amount against the contract in which the Group expects to receive in exchange for each performance obligation satisfaction.
- **Step 5:** Revenue recognition when the entity satisfies its performance obligations.

The Company satisfy the performance obligation and recognize revenue over time, if one of the following criteria is met:

- a) Company performance does not arise any asset that has an alternative use of the Company and the company has an enforceable right to pay for completed performance until the date.
- b) The Company arise or improves a customer-controlled asset when the asset is arise or improved.
- c) The customer receives and consumes the benefits of Company performance at the same time as soon as the company has performed.

For performance obligations, if one of the above conditions is met, revenue is recognized in the period in which the Company satisfies performance obligation.

When the Company satisfies performance obligation by providing the services promised, it creates an asset based on payment for the contract performance obtained, when the amount of the contract received from customer exceeds the amount of the revenue recognized, resulting advance payments from the customer (contractual obligation)

Revenue is recognized to the extent that is potential for the flow of economic benefits to the Company, revenue and costs can be measured reliably, where appropriate.

---

The application of Egyptian Accounting standard (48) requires management to exercise the following judgements:

- **Satisfaction of performance obligation:**  
The Company should assess all contracts with customers to determine whether performance obligations are satisfied over a period of time or at a point in time in order to determine the appropriate method for revenue recognition. The Company estimated that, and based on the agreement with customers, the company does not arise asset has alternative use to the Company and usually has an enforceable right to pay it for completed performance to the date.
- In these circumstances, the Company recognizes revenue over a period of time, and if that is not the case, revenue is recognized at a point in time for the sale of goods, and revenue is usually recognized at a point in time.
- **Determine the transaction price:**
  - The Company has to determine the price of the transaction in its agreement with customers, using this judgement, the Company estimates the impact of any variable contract price on the contract due to discount, fines, any significant financing component in the contract, or any non-cash contract.
- **Control transfer in contracts with customers**
  - If the Company determines the performance obligations satisfaction at a point of time, revenue is recognized when control of related contract' assets are transferred to the customer.

**Revenue recognition**

- a) **Services revenue**  
Service revenue is recognized when the service is rendered to customers. No revenue is recognized if there is uncertainty for the consideration or its associated costs.
- b) **Dividends**  
Dividend income is recognized in the separate profit or loss statement on the date of establishing the company's right to receive the dividends.
- c) **Gain on sale of investments.**  
Gain on sale of financial investments is recognized when ownership transfers to the buyer, based on the difference between the sale price and its carrying amount at the date of the sale.
- d) **Rental income**  
Rental income is recognized on a straight-line basis over the lease term.
- e) **Management fees and technical support services**  
Management fees and technical support services are recognized over a period of time according to contracts concluded with subsidiaries and sister companies according to the accrual principle in the separate profit or loss statement, to the extent that the company is considered to have performed the services in accordance to the contracts. Revenue, total flow of economic benefit entering the company, and the rate of completion of transactions can be measured accurately.
- f) **Interest income**  
Credit interest is recognized in the separate profit or loss statement based on the accrual basis on a time proportion basis, taking into consideration principle amount outstanding and the effective interest rate applied for the period until the maturity date.

**32-10 Expenses**

**i. Cost of borrowing**

Loans are recognized first at fair value less the cost of obtaining loans and later at amortized cost. The separate profit or loss statement is charged with the difference between the proceeds less the cost of obtaining the loan and the value that will be met over the loan period using the effective interest rate method. Loans are classified as short-term unless the company has unconditional rights to postpone the settlement of obligations at least 12 months after the date of the independent financial statements. Borrowing costs include currency differences arising from foreign currency borrowing to the extent that these differences are an adjustment to the interest cost. Those profits or losses that are considered an adjustment to interest cost include interest rate differences between the cost of borrowing in the functional currency and borrowing in the foreign currency.

A specific borrowing may be invested temporarily until it is spent on assets eligible for capitalization. In such a case, the income earned from the temporary investment of that borrowing is deducted from the borrowing costs within the borrowing costs eligible for capitalization. All other borrowing costs are recognized in the separate statement of profit or loss in the period in which they are incurred.

**Social insurance contribution and Pension Plan**

The company contributes to the government social insurance system for the benefit of its personnel in accordance with the social insurance law. Under this law, the employees and the employer contribute into the system on a fixed percentage of salaries basis. The company's liability is confined to the amount of its contribution. Contributions are charged to the income statement according to the accrual basis.

**32-11 Basic and diluted (Losses) / earnings per share**

Basic and diluted (losses) / earnings per share is calculated by dividing the profit or loss relating to shareholders by their common shares in the company by the weighted average to the number of shares outstanding during the period.

**32-12 Legal reserve**

In accordance with the requirements of companies' law and the company's bylaws, 5% of the net profit is set aside to form a legal reserve not available for distribution of individuals. The transfer to legal reserve ceases once the reserve reaches 50% of the issued share capital, if the reserve falls below the defined percentage, then the company is required to continue setting aside more reserves.

**32-13 Employees' share in profit**

According to its bylaws the company pays a minimum percentage of 10% from cash dividends as employees share in profit on condition not to exceed total annual employee's salaries. Employees' share in profit is recognized as dividends within changes in equity statement and as a liability during the financial period whereas the company's shareholders approved these dividends. Since the distributions of profits is an inherent right of the company's shareholders, the obligation towards the employees is not recognized in the profits whose distribution is announced until the date of the independent interim financial statements.

**32-14 Statement of cash flows**

The separate statement of cash flows is prepared using the indirect method.
